TRADESHIFT

Senior Front-End Engineer
Copenhagen
Sept. 2018–Present

- Design and develop new user-facing interfaces with emphasis on usability
- Build new features for and maintain Tradeshift's open-source component library
- Investigate and create new methods of development for 3rd-party engineers
- Discover pain points and build internal applications as solutions to those problems

THE WALL STREET JOURNAL.

Newsroom Developer
New York City
May 2017–Aug. 2018

- Prototyped, built, and maintained newsroom tools and applications
- Designed and created component-based style libraries for use by other developers
- Implemented analytics and tracking across products used by multiple teams
- Retrieved, formatted, and shuttled data retrieved from APIs to robust applications
- Set objectives and key results for teams based on data analysis
- Deprecated old tools in favor of ones built with current technologies like React

NBC

Lead Front-End Developer
New York City
Jan. 2016–April 2017

- Oversaw production and was responsible for development and design of longform digital-stories for both NBC.com and MSNBC.com
- Created and maintained reusable JS/CSS libraries and components
- Constructed automated workflows via Gulp
- Built web pages to spec based on designers' Sketch files
- Introduced data visualization to the projects and optimized web pages

THE WALL STREET JOURNAL.

Multimedia Editor
Hong Kong
June 2015–Dec. 2015

- Conceptualized, designed, and built interactive graphics
- Brainstormed and planned long-term enterprise projects
- Managed and executed production on multimedia projects
- Consulted and guided team members to ensure technologies were used

Graphics Editor
New York City
July 2014–June 2015

- Project managed the graphic requirements of the Journal's internal charting tool
- Developed a Highcharts boilerplate template for developers
- Designed, built and maintained a greatly used newsroom tool

Infographics Coordinator
New York City
Dec. 2012–July 2014

- Project managed all Sochi Olympic graphics coverage
- Produced online graphics for news events using newsroom tools and templates

EDUCATION

BACHELOR OF SCIENCE, APPLIED MATHEMATICS
University of New Hampshire, Durham, N.H.
